

primAERO

Healthy room air
thanks to innovative
technology.

The air purifier primAERO uses the ingenious plasmaNorm® technology to remove pollutants instead of just filtering them - up to 100% in the immediate vicinity.

Health-promoting purification of viruses, bacteria, germs, pollen, spores and allergenic substances from the air.

Proven elimination of smells and gaseous pollutants.

Safe and reliable plasma technology with no loss of performance.

Independently approved
HYBETA
HYGIENE · BERATUNG · TECHNISCHE ANALYSEN

Product details:

- Easily portable, only 8.2kg and 64cm in height
- Maintenance-free operation, no follow-up costs
